la cyber et de l'infra

Breakout 4 – Workshop Nutanix
16 septembre 2025

Découvrez la valeur de la plateforme Nutanix à travers un atelier immersif

Contexte

- Accès à un cluster non sécurisé
- Le personnage fictif Lucky nous guide tout au long du jeu

Objectifs

- **Se familiariser avec l'utilisation de Prism**
 - Gestion des accès et des projets
 - Reprise d'activité
 - Protection des charges de travail via Flow
 - Politiques de protection

Accès

- Accès à un bureau virtuel
- Connexion au terminal SSH via page web

```
Initializing...
Establishing a secure connection to central endpoint...
Please wait for few seconds..
Endpoint reached, sharing encryption keys. Done.
Connected!

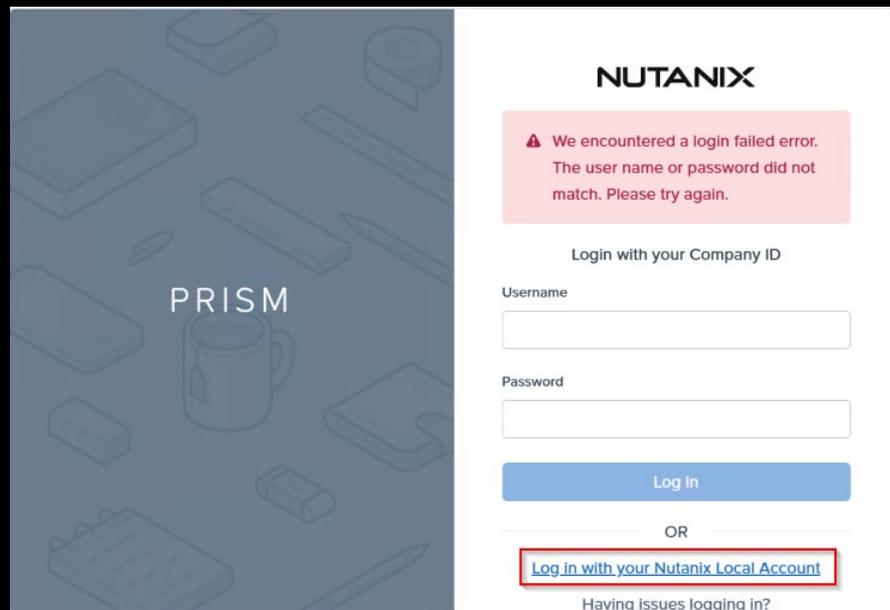

Enter your preferred language (en,fr): fr
Automatic translation requested and on the way...

Personal trigram ID required (reuse same one if you have been disconnected) : █

Découvrez la valeur de la plateforme Nutanix à travers un atelier immersif

Conseils

Assurez-vous de choisir le bon contexte lors de l'authentification à Prism (compte local vs compte de domaine)

The image shows a screenshot of the Nutanix Prism login interface. On the left, there is a blue background with the word "PRISM" in white, surrounded by faint icons of various office supplies like a notebook, a pen, a mug, and a folder. On the right, the login form is displayed on a white background. At the top right, the "NUTANIX" logo is visible. Below it, a pink error message box contains the text: "We encountered a login failed error. The user name or password did not match. Please try again." Underneath the error message, the text "Login with your Company ID" is shown. There are two input fields: "Username" and "Password". Below these fields is a blue "Log in" button. Underneath the button, the word "OR" is centered. Below "OR", there is a blue link that says "Log in with your Nutanix Local Account", which is highlighted with a red rectangular box. At the bottom right, there is a link that says "Having issues logging in?".

Ce que vous avez appris aujourd'hui

- **Découverte de Prism sous forme de jeu**
- **Gestion de projets et de permissions (RBAC)**
- **Gestion des workloads**
- **Application de politiques de configuration**
- **Protection et monitor de workloads**
- **Application de la microsegmentation**
