Existing tools insufficient to detect + diagnose issues

Digital Experience Monitoring ➤ A Crucial SASE component

of I&O teams plan to
deploy DEM to regain
control by 2026⁺

aim to consolidate tools⁺

SASE remains a grey cloud

full visibility

SASE-integrated DEM

PROVIDES **TRANSPARENT**
END-TO-END VISIBILITY

Proactive DEM ➤ From Insight to Action

The balance
is spent
fixing it

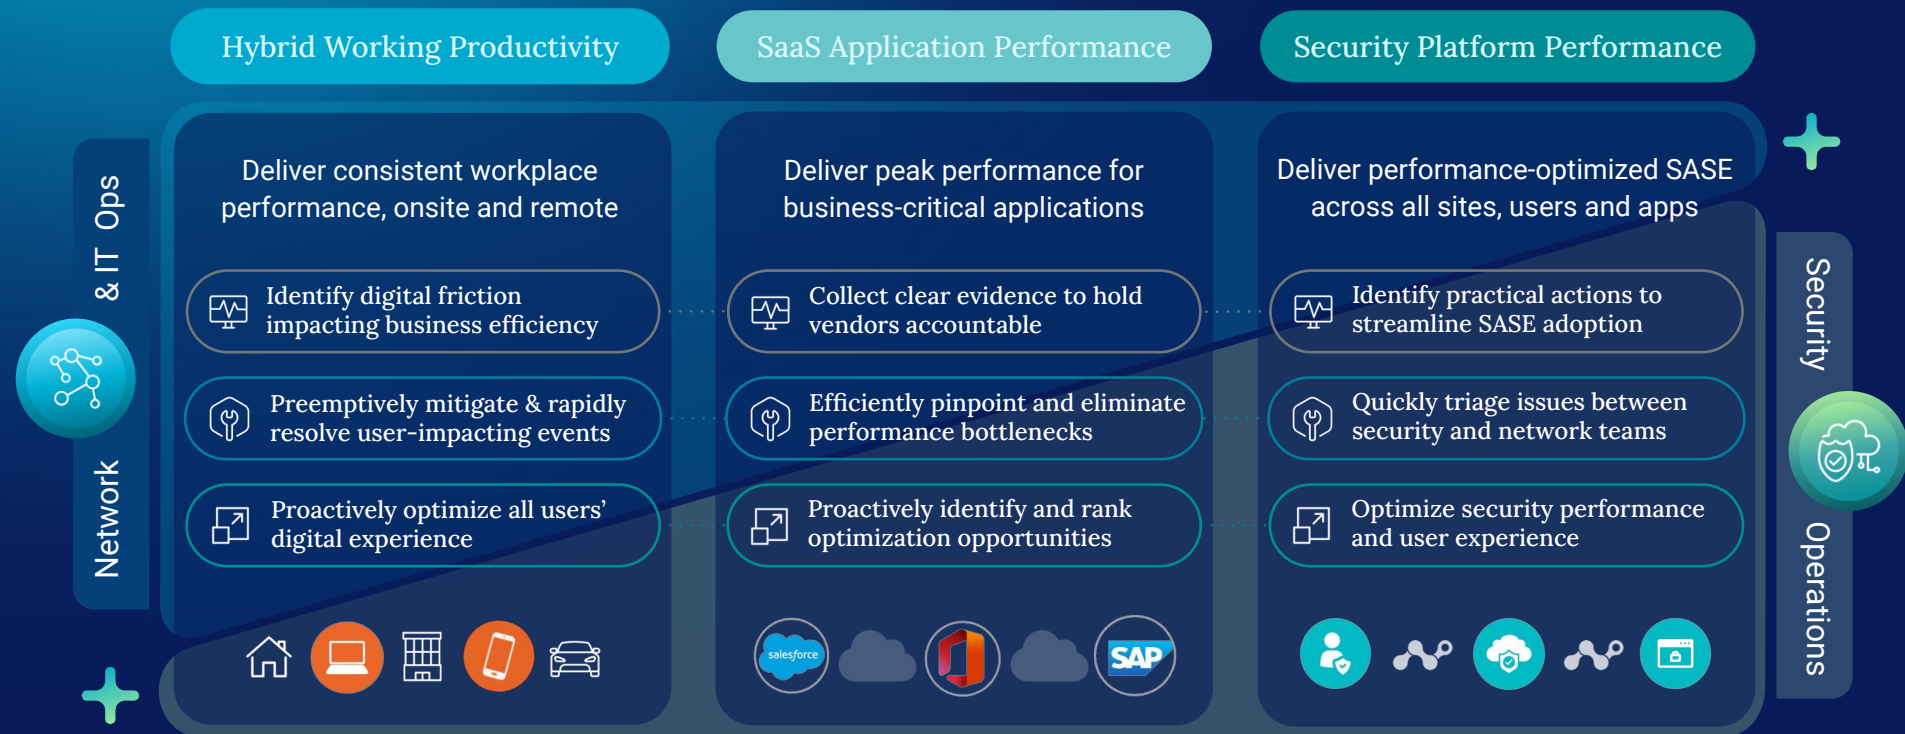

Over 50% of problem
resolution time is spent
finding the root cause

Automate Both

Proactively deliver an amazing user experience

P-DEM • Use Cases *for* Network & Security Teams

Proactive DEM Outcomes

An Industry First

Move from
Monitoring to Managing
the User Experience

powered by  NewEdge

Enhance User Experience

Automated and guided
optimization

SSE, device and
network remediation

Gain Actionable Insight

Role-centric dashboards, AI/ML
incident prioritization and alerts

Team alignment for
effective action

Capture Site- and User-centric Granular Metrics

Real User Experience and
Synthetic Monitoring

Zero-touch SaaS &
SASE performance

Diagnose Root Cause

User experience events'
scope, impact and origin

End-to-end, from
device to app

Dynamic AI/ML Analytics

Correlated insights across all
users, locations and domains

P-DEM ➤ Complete visibility into SSE, infrastructure and user experience

EDITIONS

Standard

Oversee your
Netskope estate

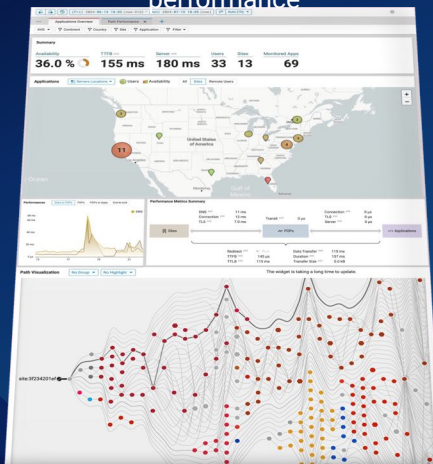

Usage, traffic,
client, onramp and
platform status

Platform, client, network &
private application insights

Enterprise

**Optimizes site
connectivity and app
performance**

Expert-level insight & analytics
for network & IT operations

Professional

Monitor + Manage
Digital Experience

Device to app visibility
for help desk and
SecOps

Proactive, actionable insight
for rapid remediation

powered by  **NewEdge**

Automated test & telemetry setup

Context

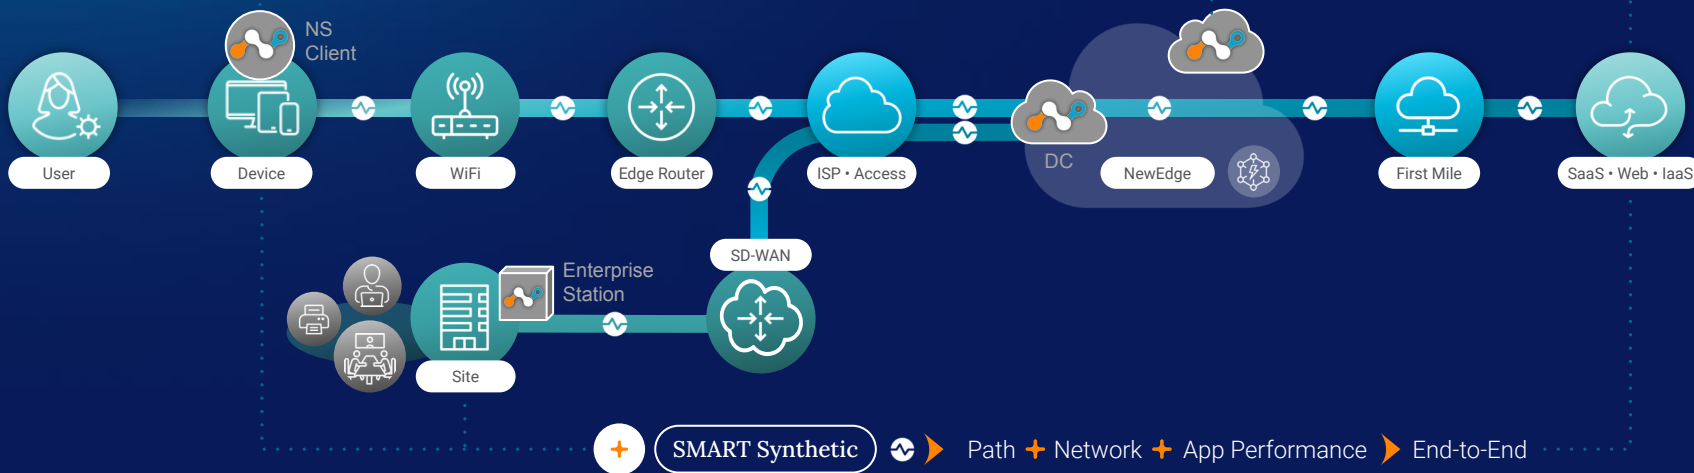

Real Experience

Time in Netskope

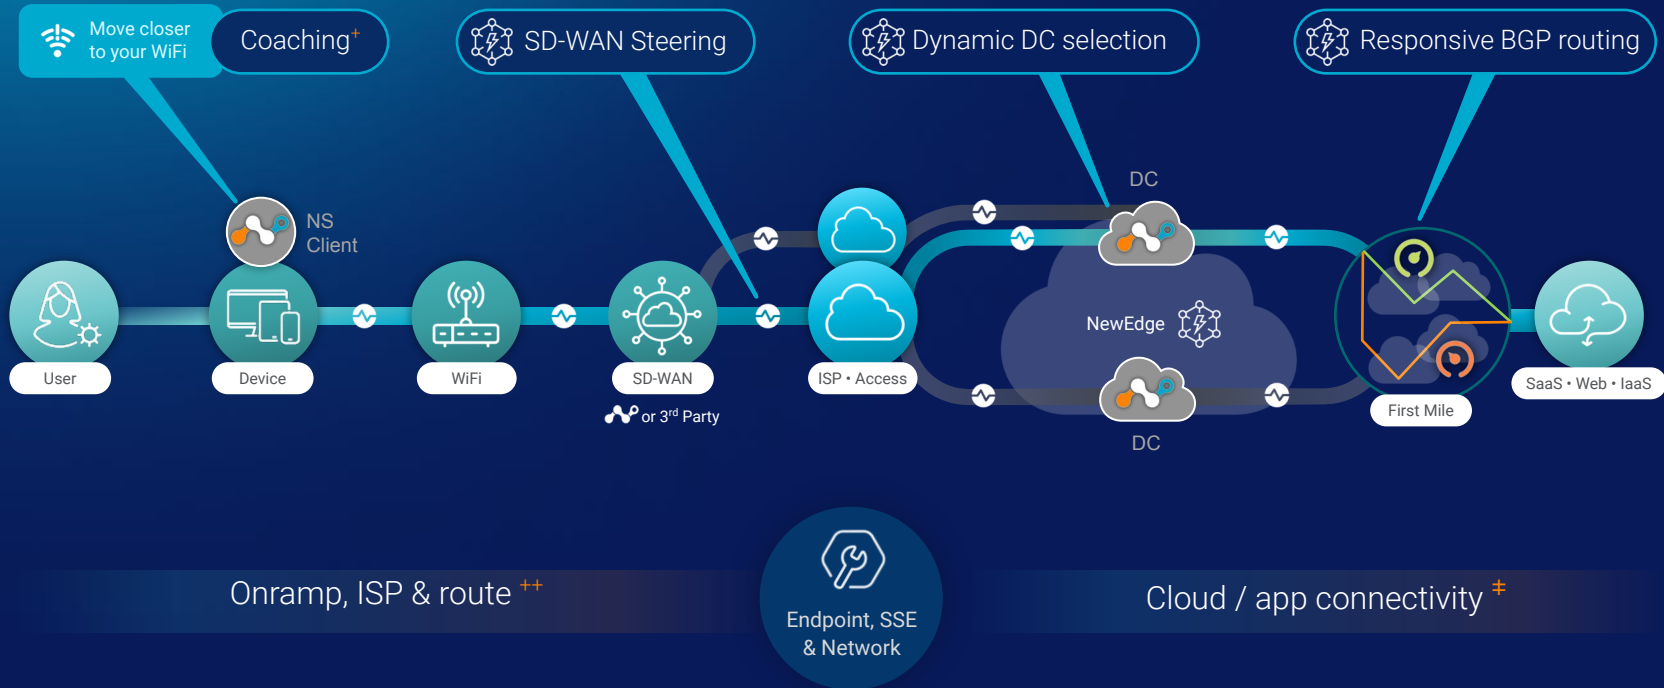

User and Site Context + Real User Monitoring
 Device Health + SaaS/web App Granular Telemetry
 User Risk Score + AI/ML Incident Alerts

+ Policy Enforcement
 + Data, Threat, +
 + Per User & App

ALL Services+

(Synthetic Monitoring Augmentation for Real Time)

Proactive + Digital Experience Management

DEMO

Proactive DEM Strategic Differentiators

SMART Monitoring

Higher accuracy with a combination of RUM & synthetic monitoring

Netskope Processing Time

Impact of Netskope SSE services on user experience

Site Centric Visibility

Visibility across enterprise stations on top of user-centric experience assessment

Zero-touch Monitoring Setup

Netskope One platform context helps identify impactful monitoring destinations

Proactive Remediation

Ability to leverage NewEdge to mitigate performance issues

Advanced Diagnostics

Advanced diagnostics capabilities for in-depth analysis of performance telemetry

+ P-DEM *Proactively...*

Reclaim Visibility
