Søren Pedersen, Chief Security Officer

Focus areas in 2023

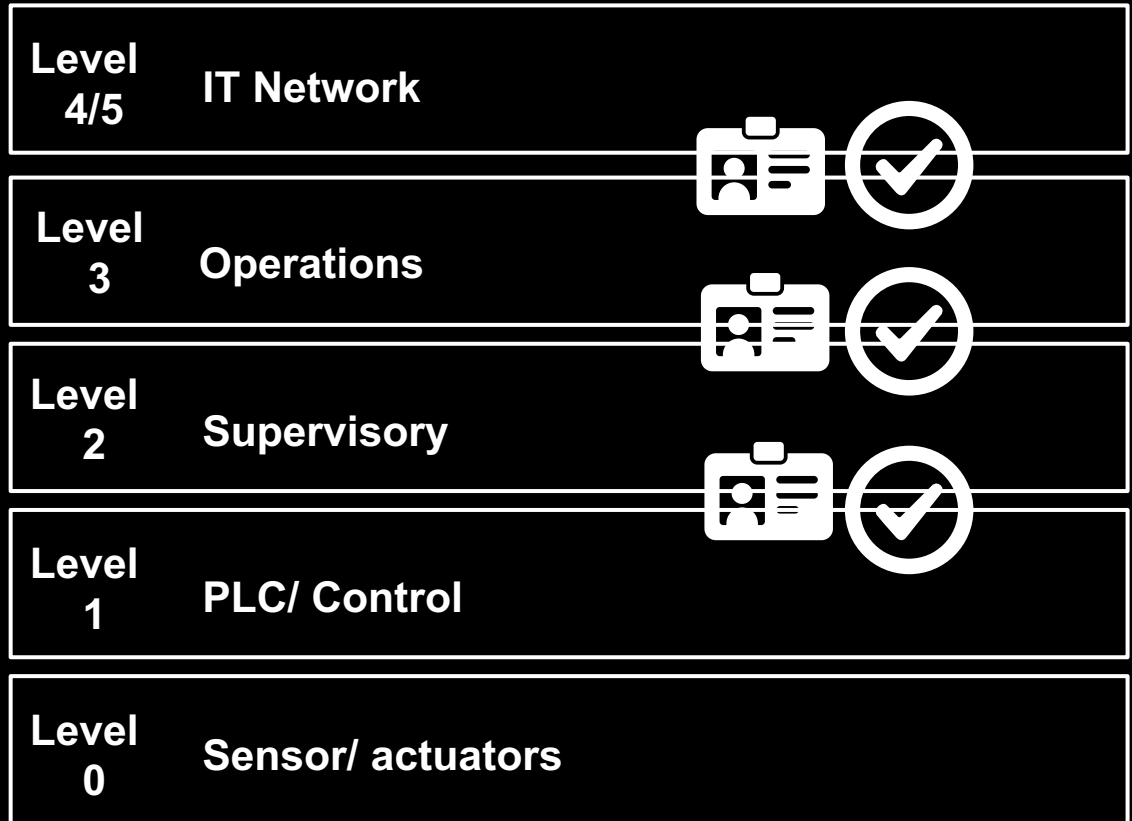

Managed Security Services

You do what you do best, and we will do the rest...

OT Security

Perdue Model

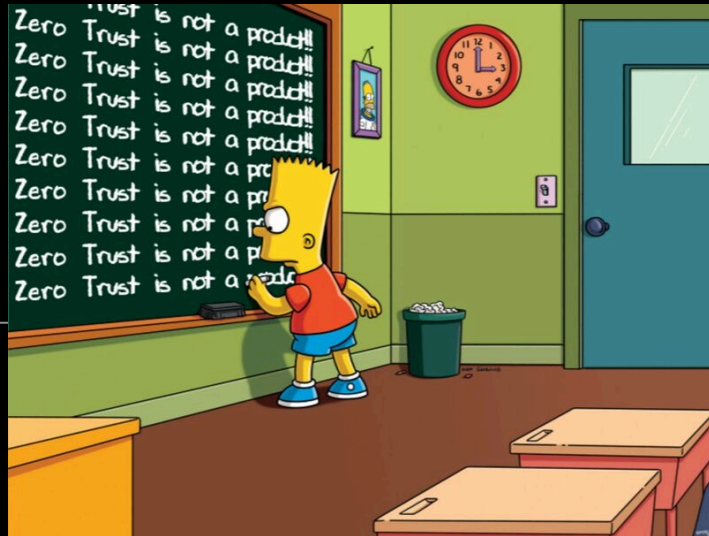

SASE / SSE

Automation

Zero Trust

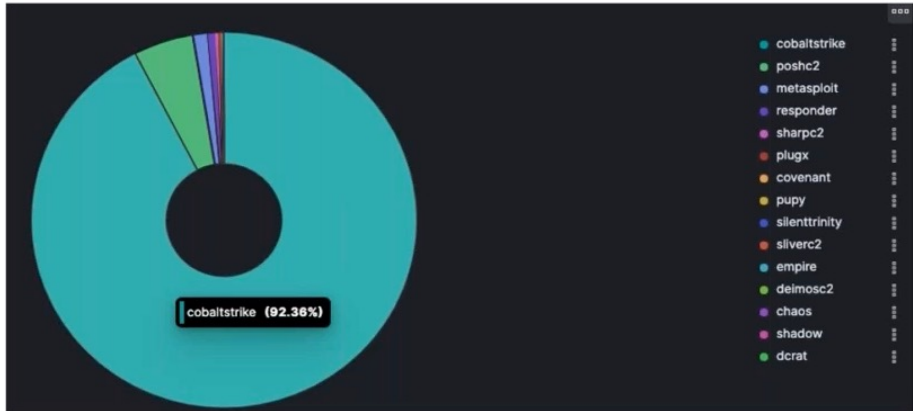

Threat Intelligence

Numbers

- We discover between 10,000 – 200,000 individual IP addresses with ports every day
- From those we probe and confirm around 3,000 every day
- On the left you see the distribution of all frameworks and on the right you see the ports they are using (80, 443 being the most used)
