Microsoft

Threat Protection Envisioning Engagement

Discover real threats, strengthen your defences, and accelerate your security strategy

Engagement highlights

- Review your security goals and objectives.
- Map identified threats and vulnerabilities to specific solution recommendations.
- Identify real threats and discover vulnerabilities in your environment.
- Develop joint plans and next steps.

Many organisations operate under the assumption that their cloud environments are secure—yet lack visibility into phishing attempts, password hygiene, and potential data exposure. The Threat Protection Engagement is designed to uncover these risks and provide a clear path forward.

Through this engagement, you'll gain real-time insight into threats targeting your organisation and receive expert guidance on how to respond. We'll help you build a tailored security strategy using Microsoft's advanced tools, aligned to your business priorities. The outcome is a documented plan with actionable next steps to remediate vulnerabilities, strengthen defences, and accelerate your security journey with confidence.

The value for your organization:

This hands-on engagement helps your organisation uncover real threats across email, identity, and data—using your own Microsoft 365 environment. It's designed to deliver immediate value and long-term impact by aligning Microsoft's advanced security tools with your specific needs.

Real-World Threat Discovery

Identify active threats and vulnerabilities in your cloud and on-premises environments.

Actionable Recommendations

Walk away with a clear set of next steps to improve your security posture and reduce risk.

Tailored Security Strategy

Receive expert guidance to align Microsoft Defender XDR, Sentinel, and Entra ID Protection with your business priorities.

Strategic Roadmap

Document your security strategy and build a business case for future investment.

Accelerated Security Journey

Learn how to operationalise Microsoft's security capabilities to drive measurable outcomes.

What to expect

During this engagement, we'll partner with you to strengthen your organization's approach to cybersecurity.
We will help you better understand how to prioritize and mitigate potential attacks, with:

- Analysis of cybersecurity threats that are found targeting your organization.
- Actionable recommendations to help immediately mitigate the identified threats and discovered vulnerabilities.
- Visibility into vulnerabilities to your Microsoft 365 cloud and on-premises environments to better understand, prioritize and address vulnerabilities and misconfigurations across your organization.
- Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps.

What to expect from

The **Threat Protection Engagement** helps you uncover real threats in your Microsoft 365 environment and build a clear plan to strengthen your security posture. You'll gain expert guidance, actionable insights, and a strategic roadmap tailored to your organisation.

Pre-Engagement Call
We begin with a cybersecurity readiness assessment and a scope definition session to align on your goals and environment.

Threat Discovery & Analysis
Using your Microsoft 365 environment, we identify active threats and vulnerabilities across email, identity, and data.

Strategic Mapping
We map findings to relevant Microsoft security solutions and demonstrate how they can be operationalised to reduce risk.

Optional Follow-Up
Support for stakeholder alignment, implementation planning, and further security optimisation.

Results Presentation
You'll receive a clear summary of findings, tactical recommendations, and a strategic roadmap tailored to your organisation.

Who should attend

The engagement is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- IT Security Architects
- IT Security Administrators
- IT Security Operations (Sec Ops)

Why Orange Cyberdefense?

• We are a certified Microsoft Security Partner with recognized expertise across Defender, Sentinel, Entra ID, and Purview.

• Our engagements follow a proven, outcome-driven methodology designed to deliver measurable value. We align your business priorities with Microsoft's advanced security tools and demonstrate how they integrate across Microsoft 365 to provide unified protection and visibility.

• With a strong European presence and global reach, we offer trusted, enterprise-grade security services tailored to your organization.
