

Managed Workspace Protection

for Microsoft 365 Defender

Security Posture improvement made simple

As Microsoft 365 Defender is becoming the most common security solution in the world, businesses struggle to find expertise to manage it.

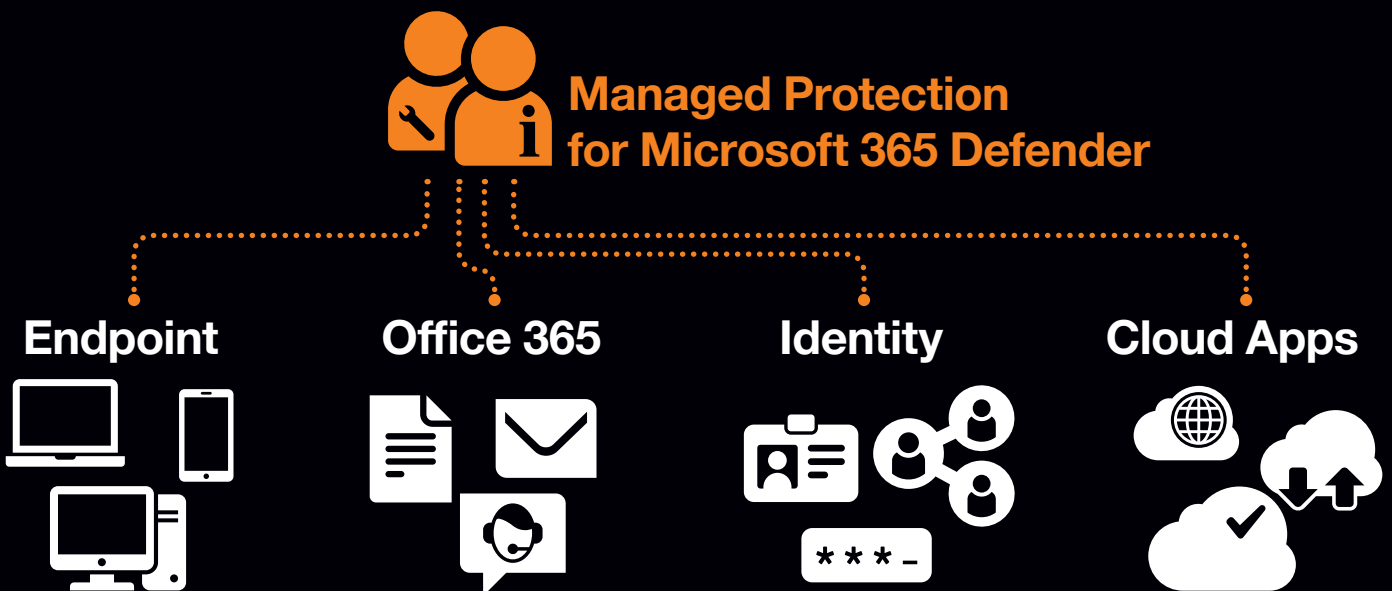

Indeed, consolidation does not eliminate complexity.

In these conditions, it is vital for enterprises to get the most out of their investment in Microsoft 365 Defender by fully using it according to best practices and keeping the pace with the frequency of new features.

Thanks to our Managed Workspace Protection, you can now rely on our experts in the Security Operations Center (SOC) who continuously monitor the levels of security of your entire IT environment to ensure that the highest levels of cyber security are met at all times within your organization.

Our promise to you:
Fully optimize your Microsoft 365 Defender Modules and functions by entrusting them to Orange Cyberdefense!

Cover the most common risks with four modular solutions:

Our service in brief:

- Microsoft 365 Defender Tenant managed on your behalf
- Your Microsoft 365 Defender Tenant enriched with Orange Cyberdefense threat intelligence to prevent more threats
- An appointed Technical Delivery Manager from our team of experts in Microsoft 365 Defender
- Regular analysis and reporting of your security posture, combined with implementation of suggested improvements to help you constantly improve your security and reduce your attack surface

Operational management

Incident management

Service request management

Policy management

Security posture management

Release management

Change management

Monitoring & event management

Key benefits

Simplify Cybersecurity Management across the Defender solutions (MDE, MDO, MDI, MDCA).

Protection against the most common risks targeting your endpoints, identities, emails and users.

A predictable and modular cost model based on the scope size, number of users, servers and Defender modules.

A continual enhancement of the security posture and a better user experience on the Microsoft solutions.

Leverage our investment in Research & Development, Cyber Threat Intelligence and automation so you don't have to.

Peace of mind of a MSSP thanks to the 24/7 support service with SLAs on operational management.
